-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2879

1. Upon reconsideration, the Examiner withdraws previous restriction requirement (paper no. 0904) and issues a fresh restriction requirement as follows:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, 24 and 25, drawn to a phosphor and method of making a phosphor, classified in class 252, subclass 301.4R.
- II. Claims 21-23, drawn to (a) a display device and (b) a plasma display device, classified in class 313, subclass 582.

Note that scope of claims 23 and 24 each could not be ascertained due to their improper dependency)

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)).

Art Unit: 2879

In the instant case, one of ordinary skill in the art would be able to produce the claimed display device, or the plasma display device, specifically a phosphor layer within the display device by: (a) pouring wet silica into the system liquid material, then pouring it (the silica containing silicon system liquid material) into a metallic element containing metal system liquid material, then (b) applying the phosphor layer on an inner surface of at least one discharge cell the display device. This method is practically an alternate of the claimed method.

Additionally, it is not required to follow the step of calcining, as recited in method claim 9, to obtain the phosphor layer of the claimed display device.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2879

5. A telephone call was made to Mr. Charles Runyan on January 24, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ashok Patel whose telephone number is 571-272-2456. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel can be reached on 571-272-2457. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
